

Dentistry (Pre)

Associate in Science Degree - TRANSFER PROGRAM Program Code 081

Advisor: Dr. Susan Lentz, (269) 927-8624, lentz@lakemichigancollege.edu

Sample Transfer Program

The following is a sample college transfer program. It is essential that you work with an academic advisor to develop an individualized program that meets the specific requirements of the college you plan to attend.

It is important to begin the science and math sequence as soon as possible to efficiently complete the coursework. Be sure to determine readiness for the math and science courses as many students need to begin with lower level math and science coursework to successfully complete the required courses.

Courses

Credit Hours

English 101, English Composition.....	3
English 102, English Composition, or English 103, Technical Writing	3

Physics 102, General Physics II.....	5
Group II Social Science electives.....	6
Group III Humanities electives.....	9

* Transferring students are encouraged to take PHED 212 or PHED 214.

Transfer Resources

If you are planning to transfer to a four-year college or university, you should become familiar with your chosen school's requirements. See your Academic Advisor for assistance in developing your Student Education Plan or visit www.lakemichigancollege.edu/transfer

About the Area of Study

You can complete the minimum requirements for admission to dentistry school at Lake Michigan College. Since the requirements vary among dental schools, you should become familiar with the specific ones for the dental school in which you are interested. Most dental schools prefer candidates with bachelor's degrees.

Sixty semester hours of the Pre-Dentistry program can be transferred to similar programs at Michigan colleges and universities. The Pre-Dentistry advisor will assist you in planning your individualized program.

A career in dentistry can lead to running your own practice as a general practitioner. However, you may wish to specialize in orthodontics, oral and maxillofacial surgery, pediatric dentistry, periodontics, prosthodontics, endodontics, public health dentistry, oral pathology, or oral and maxillofacial radiology. **There is a 61-credit degree requirement needed for graduation.**
