If you are unsure of the answers to the following questions, please have a conversation with the student to determine the answer. These questions are based on eligibility guidelines, and also include basic information that the recommending person should take into consideration before recommending a student for SSF/VEAF.

Please do not refer students to the office of Vice President of Student Affairs for “more information” about SSF/VEAF without reviewing these general guidelines for eligibility. Mentioning the fund should not be considered a way to appease a student or pass students off. Students often rely on this money as a certainty; if a student is denied after being told this was a viable option this may cause financial strain and added stress. Students applications should be accompanied by a staff referral (often, the referring person knows more about the student and student’s background or has a better relationship with the student than the Office of Vice President of Student Affairs. Students caught in this loop between the Vice President of Student Affairs Office and the referring staff often feel frustrated, and sometimes embarrassed, so please consider this before sending a student to the Vice President of Student Affairs Office. The Vice President of Student Affairs Office reviews & approves the referral after it has been completed. If you have questions about the process, please contact the Vice President of Student Affairs Office directly rather than sending the student on your behalf. Thank you.
